

Parent Access

Schoolology is the Learning Management System (LMS) all high school teachers and elementary teachers are using this school year. As a parent, you may log into Schoolology to view your child's grades. You will also be able to view course updates, assignments, pictures, calendars, newsletters, etc. placed there by your child's teacher (depending on settings put in place by the teacher). Once you have joined/logged into Schoolology, you may elect to receive daily or weekly emails of your child's classroom activities or overdue assignments. Directions for setting optional email preferences in Schoolology are available in the Schoolology Parent module at this link:

<https://support.schoolology.com/hc/en-us/articles/201000903-Parent-Email-Digest-and-Overdue-Notifications-Email>

If you created a Parent account last year in Schoolology, you do not have re-create another account this year. All you have to do is log into Schoolology at: <https://kalida.schoolology.com> to see your child's classes for this school year. If you forgot your password, just click on "Forgot your password" to reset it. Once you have logged into Schoolology, go to the top right-hand corner and click on the down arrow in the box to the right of your name to verify your children. If you do not see all of your children, go to "+ Add Child" and input the code for your child provided to you on the Schoolology letter that went home with your child the first week of school. For help with adding a child(ren), go to the "Add Children Associations" section in the link below.

If you are new to Schoolology this school year, you will need to register for a parent account at <https://www.schoolology.com> and use the parent code provided to you on the Schoolology letter. You will need to enter this access code only one time to automatically be registered and see every class assigned to your child in Schoolology. Also, you do not need to create a separate parent account for each child; simply click the "+ Add Child" button in Schoolology and enter the access code for additional children. (The + Add Child button is located by going to the top right-hand corner and clicking on the down arrow in the box to the right of your name and dragging down to + Add Child.)

For detailed information about how to register and use the Parent module in Schoolology to see your child's grades, assignments, calendars, newsletter, pictures, etc. go to this link:

<https://support.schoolology.com/hc/en-us/sections/200216553-Parents>

Once you have created your Schoolology account you may use Kalida Local Schools external website for Schoolology: <https://kalida.schoolology.com>

Because Schoolology is an on-line system hosted outside the district, access to it depends on your home Internet connection.

If you have any questions about access codes or logging into Schoolology, please call Mrs. Scherer or Mr. Okuley at the high school or email Mrs. Scherer at: ka_scherer@kalidaschools.org or Mr. Okuley at: ka_tech@kalidaschools.org
